

MultiSpread™ SERIES

For a Variety of Wet or Dry Materials

Earth & Turf's MultiSpread™ topdressers will spread a wide variety of materials, wet or dry. These machines are fast, reliable, and backed by one of the best warranties on the market. **The MultiSpread™ 415-SP models will spread sand, compost, and topdressing mixes.**

Specifications 415-SP

Struck Level Capacity	15 cu. ft. 0.43 m ³
Heaped Capacity	1 cu. yd. 0.77 m ³
Max Load Weight	1500 lbs. 680.4 kg
Box Width	48 in. 122 cm
Box Length	46 in. 116.8 cm
Box Height	12 in. 30.5 cm
Overall Width	55 in. 139.7 cm
Straddle Width (inside of tires)	30 in. 76.2 cm
Width at Tires	49 in. 124.5 cm
Ground Clearance* (to bottom frame)	6 in. 15.24 cm
Overall Length	76 in. 193 cm
Spread Width	48 in. 127 cm
Spread Thickness	0.1875 in. 0.48 cm
Unit Weight*	1400 lbs. 635 kg
Max Gross Weight*	3500 lbs. 1587 kg
Movement	Self Propelled 0-7 mph spreading speed
Spread System	Stiff Bristled Rotating Expeller Brush
Drive	Hydraulic 4-wheel motor, 4-wheel steering
Engine	22 HP Honda

*Varies depending on options

America's COMPACT TOPDRESSER Company

A High Production Machine

The 415-SP is the largest stand-on, 4 wheel drive, 4 wheel steer topdresser on the market. It is designed to eliminate two machines from your trailer. It can topdress, aerate and seed at the exact same time. It boasts a 48" spread, with 7 MPH spreading speed. When the operator reverses the machine, it stops spreading to avoid double coating unintentionally. It has an advanced 4 wheel drive system; each wheel has its own hydrostatic motor, meaning it has infinite variable speeds, and climbs hills with no issues. 4 wheel steering allows you to get as close to edges or obstacles as needed. A 22HP Honda powers you to spread in hilly, open, and tight conditions - even with a full load.

Earth and Turf wants to take the commercial landscaper's productivity to the next level by providing a machine that is fast, reliable and versatile.

MultiSpread™ 415-SP

415-SP Benefits

- The large capacity box will hold 1/2 cubic yard of sand, and 1 full cubic yard of compost. This is the largest stand-on topdresser on the market, allowing the operator to spread more material, reducing the number of trips back to reload the machine. This weight rating stands for the safety of the operator and the longevity of the machine.
- Our unique, 4-wheel drive, 4-wheel steer system allows the operator drive on all new terrains without tiring out. There is no more need to walk up hills and around flower beds, the 415 will drive on most terrains without issues with traction.
- The pivoting front axle allows the topdresser to contour the landscape and level out the ride for the operator.

Features

Easy-to-Use Controls

Designed with ease in mind, control speed and direction with one hand and steer with the other.

Adjustable End Gate

This handle makes it easy to adjust so you are always in control of how much material you are spreading.

All-Terrain Capabilities

No need to worry about topdressing on hills and more challenging terrain, the MultiSpread 415 was designed to handle uneven ground that other top dressers won't.

Hydrostatic Drive

4 individual hydraulic motors that drive and steer each wheel individually. They are driven by a HydroGear pump for premium hydrostatic drive.

OPTIONS

48" Core Aerator

Add the adjustable-depth core aerator attachment to your stand on topdresser for superior topdressing penetration.

Adjustable Flow 100lb. Seedbox

Offering 100 lbs. of seed storage and 20 different drop seeding settings, this attachment will save you time and money on your job sites!

415-SP Benefits

- With a maximum speed of up to 7MPH, a larger hopper capacity, and a spread width of 48", the 415-SP will get the job done efficiently - 3-4 times faster than the leading walk behind topdresser. This will increase job profitability, and allow more time and energy for more jobs.
- A grip stand on plate with rubber bumper suspension provides comfort and control to the operator. Stand on capabilities leave the driver free to move around and step off as needed to load, switch units, and move items from the spreading area.
